Hazardous Weather

Tuesday Weather Trends

A few early morning showers & storms Southeast

Weather Forecast Office
Fort Worth, TX
Issued May 04, 2021 2:27 AM CDT

An upper level system and associated cold front will impact the area today with a few morning showers and thunderstorms across eastern Central Texas. A strong storm with gusty winds and small hail is possible. Clouds will be slow to decrease from west to east today with increasing north-northwest winds 15-20 mph and gusty by afternoon. Highs will only warm into the 60s north and 70s elsewhere.

Severe Weather Risk - Tuesday

Valid from Tue 7:00 AM through Wed 7:00 AM

Weather Forecast Office
Shreveport, LA
Issued May 3, 2021 12:30 PM CT

The threat of severe weather will continue today across our southeast zones as a cold front shifts farther into the region. Damaging winds, very large hail, and isolated tornadoes will all remain in play. In addition, heavy rainfall may pose a localized flash flood threat.

Hazardous Weather

Showers and thunderstorms will increase across the area today as a cold front moves through the area. Some storms could become severe, especially over portions of the area from Toledo Bend Reservoir into central Louisiana. Storms could also produce heavy rainfall at times. Rain chances will decrease from west to east this evening as the front moves east of the area.

A frontal boundary will move across South Texas today. Not as hot, with highs ranging from near 80 coast to the upper 80s west. The front may trigger isolated to scattered showers and thunderstorms over the Coastal Plains, with thunderstorms more likely over the Victoria Crossroads.

Hazardous Weather

A weak cold front will move through Deep South Texas and the Rio Grande Valley today, bringing breezy northerly winds out west and a slight chance of showers and thunderstorms. However, temperatures will still reach the upper 80s to near 90 this afternoon. Meanwhile, along the Lower Texas Coast, mariners will experience hazardous marine conditions.

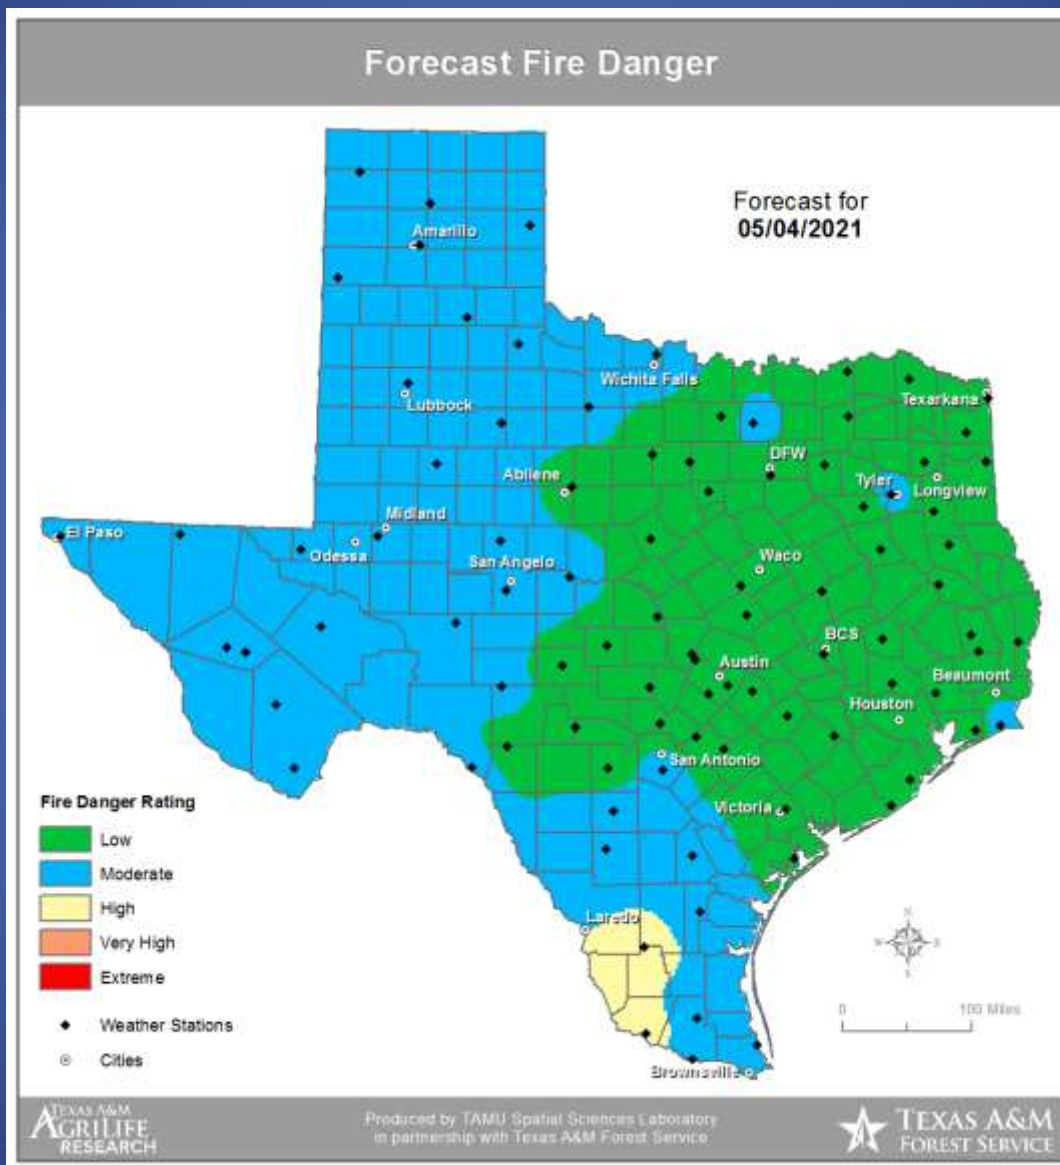

Weather Warnings/Advisories Issued

DATE	WARNING TYPE	LOCATION
05/03/21	Flood Warning	San Antonio River at Goliad Affecting Calhoun, Goliad, Refugio, and Victoria Counties; Ayish Bayou Near San Augustine Affecting Sabine and San Augustine Counties
